### Pale and Wan She En- tered Court Room for Her Trial

#### WHICH WAS POSTPONED

### By Mighty Effort She Main- tained a Calm Demeanor Through Ordeal

#### Fourth Trial of Caleb Powers Was Called and the Defendant Wants to Proceed.

Washington, Nov. 11.—Mrs. Anna Bradley, pale and worn, yet displaying an unusual fortitude, appeared in Justice Stafford's court today to answer for the killing of former Senator Brown, of Utah, only to hear that she would be given two days' respite before her ordeal begins. Immediately after the roll call for veniremen and witnesses, District Attorney Bicker, announcing the death of Judge Louis E. McComas, of the Court of Appeals, asked that the court take official recognition of it. Justice Stafford then announced an adjournment until Wednesday morning. Mrs. Bradley was visibly relieved at the postponement. When the frail little woman slipped into the court room, almost unnoticed, she was evidently struggling to retain her composure, under the tremendous nervous strain. She was dressed in black with a touch of white at the throat. As she sat down between her attorneys she was just able to utter a "Good morning," and for a time it was feared that she would collapse. A curious crowd had collected about the building to catch a glimpse of her.

## HOLD CONFERENCES AT POWERS TRIAL

Georgetown, Ky., Nov. 11.—The fourth trial of Caleb Powers, charged with complicity in the murder of Wm. Goebel, was called here this morning. Judge J. S. Morris, of Oldham county is the trial judge. Powers entered the court room shortly before 10 o'clock, accompanied by his attorneys. He appeared in good spirits and his face showed indications that his health has returned.

There were conferences just prior to the calling of the trial this morning. This appears to be a proper time for the trial from a Republican standpoint, while the Democrats are uncertain whether it would be best to try it now or await the inauguration of Wilson as governor. Should Powers be convicted now, he might have grounds for claiming that he was made a victim of party prejudice because of the defeat of the Democratic state ticket, but should he be tried before a Republican judge and be convicted, the chances of freedom would be lessened. Powers says he is anxious for the trial because he wants to be vindicated by a Democratic judge.

Attorney Franklin asked for a recess until Tuesday, saying that a number of the most important witnesses had not answered, but that the commonwealth is anxious for the trial and expects to get its witnesses by that time. The recess was granted.

## SWITCHMEN

Garrigan is not seriously injured.

## LOUIS E. M'COMAS DIED SUDDENLY

#### WAS THE LEADER OF MARYLAND REPUBLICAN POLITICS AND EX-SENATOR.

#### Defeated Arthur Pue Gorman Eight Years Ago—Married Last July to Beautiful Widow.

Washington, Nov. 11.—Louis Emory McComas, associate justice of the Court of Appeals of the District of Columbia, ex-United States senator and former Republican leader of Maryland, died suddenly of heart disease at his home in this city Sunday.

At his bedside when the dissolution came was his wife, the beautiful Hebe Harrison-Muir McComas, to whom he had been married only since last July.

Judge McComas had appeared in fair health since his marriage until the past few days, when his heart, overtaxed by work and the enormous social duties following his marriage, began to give way.

He was 61 years old on October 23 last. For years he has been a controlling power in Maryland Republican politics. He defeated the late Senator Arthur Pue Gorman, whom he once defeated for the United States senate.

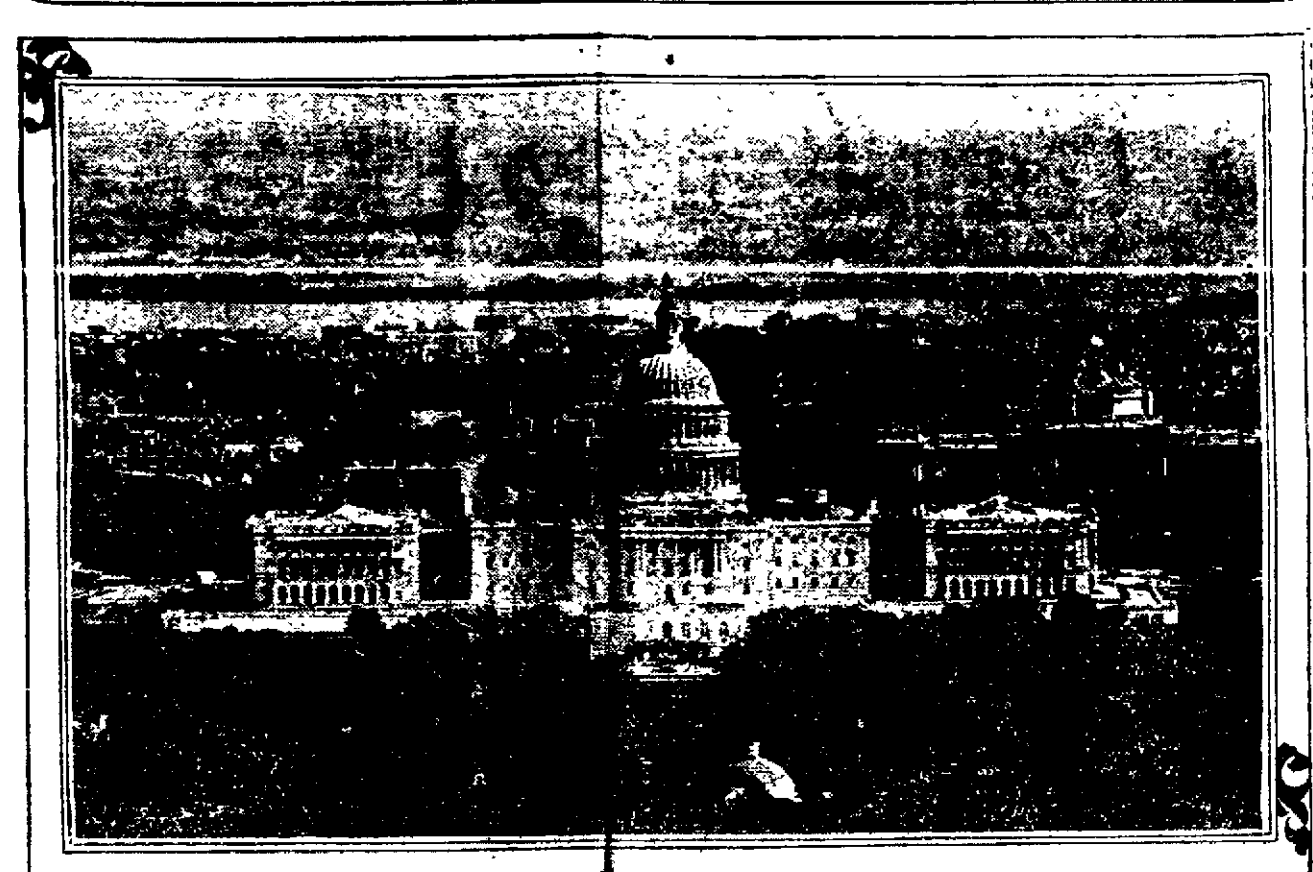

Prior to that he had been a congressman for several terms as a judge of the district Court of Appeals. It was eight years ago that he turned the state Republican against Gorman.

## WEATHER MAN SAYS

It will be clear and colder tonight, but look out for snow. An inch and a half fell in Cleveland this morning.

## PICTURES FROM THE CLOUDS SHOW GOOD RESULTS

THE CAPITOL, TAKEN FROM TOP OF THE WASHINGTON MONUMENT 7500 FEET AWAY WITH TELEPHOTO CAMERA

Washington, Nov. 11.—Remarkable results have been obtained by the United States Signal Corps in its experiments with the new telephoto camera, which is designed for use of the camera lies in its reproduction

in detail at a great distance of the strength of an enemy, troop formation and fortifications.

Test photographs taken by Major Edgar Russel from the top of the Washington monument show something of the results which can be obtained with the instrument. A picture of the capitol was taken at a dis-

tance of 7,500 feet and one of the new Union Station at a distance of 8,700 feet, or about one and one-half miles.

The telephoto camera is an arrangement of reflecting lenses, which gives a result similar to that to be obtained if a picture were taken through a telescope.

and too his place in the senate. In turn, however, he was defeated by Gorman and was then appointed by the President to the place he held at his death.

Last winter during the height of the capital's gaiety McComas fell in love with Mrs. Hebe Harrison Muir, whom the recent death of Judge Up-ton Muir, the noted Kentucky jurist, had widowed. She is now 35 years old and was the recognized belle of the season. The couple were married in the Waldorf-Astoria on July 15. Since their return from a long honeymoon abroad they have been living at the great McComas mansion in this city. The deceased jurist is said to be very wealthy.

## PINNED NOTES TO PORTIERS

#### Then Swallowed Poison, After Which She Told of What She Had Done. Condition Critical.

New York, Nov. 11.—Leaving notes to several relatives and friends pinned to the portiers of her handsome apartments at Mrs. Herman Weller's home, Mrs. Bella Casanovetto swallowed poison early today, walked out, met Policeman Miller, told him what she had done and was hurried to Bellevue hospital, where, though her condition is critical, it is hoped she may recover.

One of her letters was addressed to M. M. Platt, 311 Citizens' Building, Cleveland, and reads: "Dear Father, you often said I would be better off dead. Now you won't have to worry any more about me. Mr. D. probably loved me best of all, but I don't care. It's too late now. When you get this letter I will have joined mother. Forgive me."

## "NEVER MIND THE GUNS BUT LOOK PRETTY"

#### SIGNALLED BRITISH SQUADRON COMMANDER WHEN ORDERED TO REPAINT SHIPS.

## IN HONOR OF THE KAISER

#### And is Reprimanded by Admiral Beresford for "Contumacious and Insubordinate" Message.

London, Nov. 11.—The German imperial yacht Hohenzollern, which is bringing Emperor William and his party to visit England and which was expected to enter Sandown Bay, Isle of Wight last night, was greatly delayed by a heavy fog and obliged to anchor, with the cruisers escorting her, off Selsey Hill.

An extraordinary incident has come to light in connection with the visit of the Emperor. It is related that at the conclusion of the recent maneuvers the channel fleet and the first cruiser squadron were ordered by the admiralty to repaint, &c., in honor of the German Emperor. Upon receipt of this order Sir Percy Scott, commander of the cruiser squadron, sent the following signal to two of his vessels: "Paint work appears to be more in demand than gunnery, so you had better come in on time to look pretty by the 8th instant."

Admiral Lord Charles Beresford, in a general order to the fleet, repeating the instructions to repaint, refers to the signal sent out by Sir Percy Scott as "contumacious in tone and insubordinate in character" and orders Sir Percy to have it stricken from the signal log.

Sir Percy Scott and members of his staff were summoned aboard Admiral Beresford's flagship last Friday and the Admiral's reprimand was read to them.

Rear Admiral Sir Percy Scott is probably the best versed officer in gunnery in the British navy, and he is well known as the man who "saved" Lady Smith in 1899 because he devised a special carriage for 6-inch and 4.7-inch guns from the cruiser Terrible, which was commanded at Durban, whereby the pieces were carried by rail into Ladysmith just before its investment by the Boers.

Despite his anti-German sentiment in some quarters the people of England are prepared to give the Kaiser the warmest of welcomes on his arrival on the shores.

in order to make his peace with Pope Gregory VII.

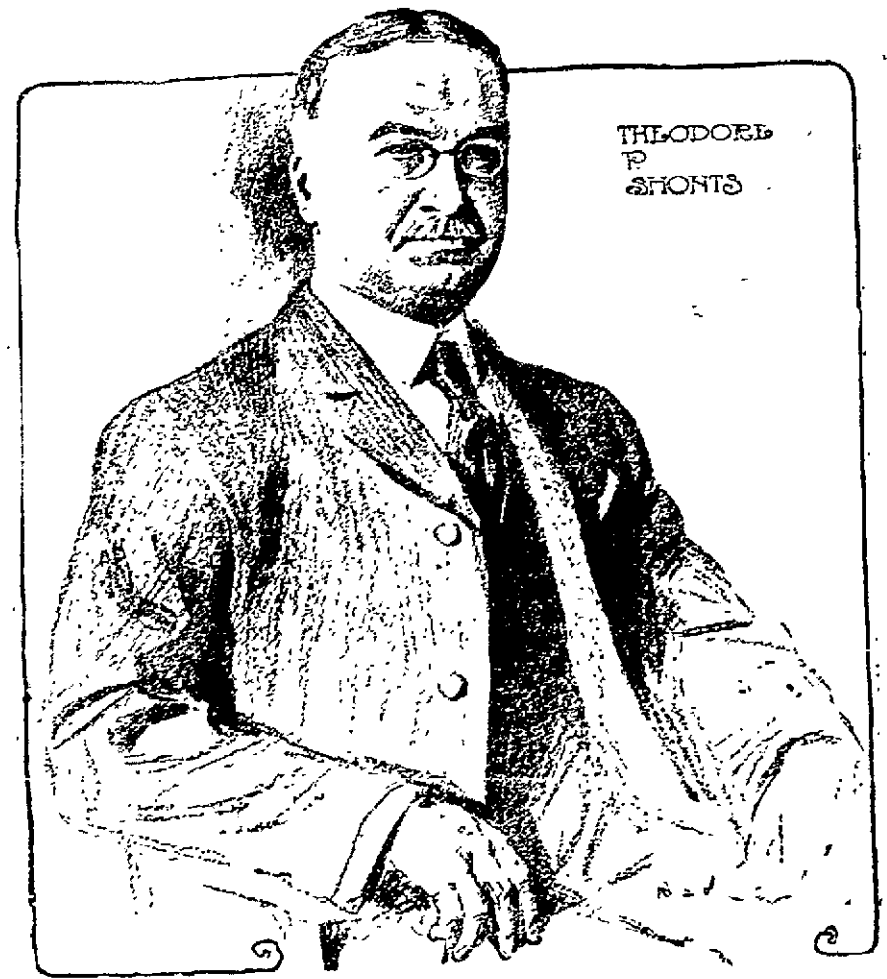

## KAISER LANDED IN HEAVY FOG.

London, Nov. 11.—If ever there was a melancholy landing of foreign royalty on British soil, it was at 2 o'clock this afternoon when Kaiser Wilhelm of Germany stepped from the imperial yacht, Hohenzollern, upon the wharf at Portsmouth. What was planned for a gorgeous pageant, boiling with joy and enthusiasm, might well have been mistaken for a funeral.

The fog was so dense that the Kaiser and his consort had almost to feel for the Prince of Wales and the Duke of Connaught, who were on the landing to welcome them. The crowd couldn't see the royal visitors, and the royal visitors couldn't see the crowd. There wasn't much cheering, because nobody could tell when it was time to cheer. The water dripped from everything. The Kaiser was evidently anxious lest the dampness have an unfavorable effect on his throat trouble and was muffled up until he looked like a walking mummy.

## THREE MEN TO BE SHOT IN MEXICO

Mexico City, Mex., Nov. 11.—After five years the cases of C. T. Richardson, William Mason, and Dr. C. S. Harle, charged with conspiracy to murder in order to collect the insurance of their alleged victims, have ended, and nothing can save them from being shot at Chihuahua, Mexico, on December 6 unless the governor of the state interferes. This is unlikely. The supreme court has affirmed their sentence of death.

New York, Nov. 9.—Mr. Shonts, president of the Interborough-Metro-North Railroad Company, is probably the busiest man in New York. Twelve to eighteen hours a day in his office is the subway president's custom. The

## DETECTIVES MAY MAKE AN ARREST

#### Pinkertons Say They Can Lay Hands on Man Who Killed Wealthy W. F. Baker.

New York, Nov. 11.—The time at which the poison was administered to Walter Farnsworth Baker, wealthy East Day Clubman of Boston, which caused his death on October 27, has been traced, according to a dispatch from Boston Sunday night. Pinkerton detectives, it is said, also, have wired Edward F. Baker, the brother of the victim, that they are prepared to arrest the man who administered the poison.

This man has been under surveillance for more than a week. He is the man who is said to have knowledge of the rare South American poison, curare, which is now asserted to have caused the clubman's death.

Whether this man alone will be held accountable for the slaying of Walter F. Baker is not yet clear.

The advices received from Boston, which quote the information given by Pinkertons, say that the poison was administered between 8 and 9:30 o'clock on the night of October 26. This period Saturday night is said to have been a blank to the investigators.

Bands of rescuers are working but it may be months before his body can be reached.

## VAST TERRITORY INVOLVED

### In Earthquake Which De- stroyed Many Towns In Turkestan

#### And It Will Be Weeks Before It Will be Possible to Give Exact Figures.

St. Petersburg, Nov. 11.—Twenty thousand may fall short of the total number of killed in the recent earthquake in Russian Turkestan. Official reports from the relief parties sent out following the news of Karatagh's destruction prove the first reports to have fallen far short of the truth.

Officials in charge of the relief work say they have as yet accounted for but about 14,000, but that the territory is so vast, communication so slow and the wreck of the villages so complete that it will be weeks before it will be possible to tell just how many perished and that the number is likely to be greater rather than less than present estimates.

Karatagh, where about 4,000 died, was only one of many towns wiped out. Several of them, like Karatagh, were buried under immense mountain slides. Others were completely leveled with the ground, crushing their inhabitants under the ruins of their own homes. In several places vast fissures were opened in the earth the courses of streams changed and the entire configuration of the country altered.

## RECEPTION

#### GIVEN BY ST. LOUIS WOMAN TO YOUNG MEN AND WOMEN.

#### For the Purpose of Getting Acquaint- ed With Each Other, Proved a Great Success.

St. Louis, Mo., Nov. 11.—Such success greeted the initial effort of Mrs. A. H. Mustian Sunday night in throwing open a parlor of her home to lonely young girls and boys who were longing for the opportunity of making acquaintances among the opposite sex, and had not the proper introductions to do so, that the affair will be repeated again next Sunday. Mrs. Mustian, mother of six children, made her announcement of the open parlor plan, and fixed the hours from 7 to 10 p. m. last night. There were seven young men at her home and three young women who came alone. No names were taken as Mrs. Mustian did not want to bother her guests.

The committee will resume its sitting Tuesday when a summary of the work accomplished will be submitted by Voreys.

## ROUMANIANS

OF NEWARK ASSISTED BY MANY COUNTRYMEN FROM OTHER OHIO CITIES.

Carry Out Elaborate Program in the Public Dedication of the American Flag.

Sunday was a gala day and one that will long be remembered in Rumanian circles in this city. It was made so by the dedication and blessing of the American and Rumanian flags, the former being presented to the Rumanian Benevolent Society by Harry Roedel, president of the City Council. The exercises lasted throughout the day and were participated in by a number of visiting societies.

The flag dedication, celebration of High mass and blessing of the flags occurred in Music Hall on West Main street. Promptly at 10 o'clock the societies marched to the hall accompanied by Marsh's band of this city, and a Rumanian band of Canton, Mayor McCleery. Mayor-elect Atherton and President of the City Council Harry Roedel were given seats of honor. The stage was dressed for altar purposes and numerous candles were burning. Father Tronafli Scarobet of Youngstown, and Father Joan Tatu, of Indiana Harbor, Ind., celebrated High mass, assisted by several of the local celebrities.

At the conclusion of the mass a large American silk flag was handed the priests. It was hand-made and was the gift of Mr. Roedel. They blessed it and handed it to Mayor McCleery and that official in a few well chosen words, presented it to the society. They received it with cheers, saluted it and the band rendered the national anthem, "The Star Spangled Banner." Mr. Roedel next made a few remarks pertinent to the occasion and was followed by Mr. Atherton, who also made a short but pleasing address.

A new Rumanian flag was next handed the fathers and it also was christened and blessed, Mr. and Mrs. Adam Bahr standing sponsors. It was accepted by the society, was saluted and cheered and the Rumanian band played the national air of that country, after which the audience was dismissed.

The parade formed in front of the Music Hall and was headed by mounted officers of the society in handsome costumes. Next followed the flag bearers, mounted on prancing steeds, and these in turn by Marsh's band. Next was a carriage containing Mayor McCleery, President of the Council Roedel, Mayor-elect Atherton, and Members of the Board of safety Juch and Avery. Next in line of march were carriages containing ladies and prominent members of the society and those in turn were followed by Carmen Silvia Rumanian society of Cleveland, led by the Canton band, the Invillen society of Martin's Ferry, the Transylvania society of Indiana Harbor, Ind., the Vultur society of Homestead, Pa., and the local society, the Decia Traiana. They marched over the principal streets, and disbanded at Assembly Hall on West Church street. The marshal of the day was John Simington.

At 1 o'clock an elegant banquet was served in Assembly Hall which had been appropriately decorated for the occasion with potted plants, ferns and the national colors of the United States and Rumania. Three long tables were stretched the full length of the hall and their snowy covers and handsome tableware made a very pretty effect. About 200 guests were served, including a large number of specially invited American guests. The cuisine and viands were excellent and the service could not have been better. The caterer was Joseph Rehman, and the banquet was arranged under the supervision of Mr. John Sante, of the Foreign Exchange bank, and he is deserving of great credit for the excellent manner in which it was handled.

After the inner man had been satisfied a number of speeches were made by Messrs. McCleery, Roedel, Atherton, Juch and Avery, and they were all translated by a young Rumanian who is said to be a college graduate and who speaks the English language fluently, as do indeed, many of the society's members. Responses were made by a number of officers of Decia Traiana, and they all told of their love for this country, and compared their conditions here with those of the mother country. John Simington made an eloquent address stating that many of those present were peasants in the old country and their hardships abroad were appalling. Here in this glorious and free country, they all had an equal chance and each and every one received results from their labor. During the banquet the bands discoursed sweet music from the balcony.

At the conclusion of the day's exercises all were given a chance to join the society, which has for its object, social cultivation and the uplifting of its members. They were also given a chance to contribute to the good cause. This was done by each volunteer walking up to a table on which their flag was placed and driving a tack in the flag staff. He then enrolled his name and signed the amount of his subscription, after

which he was cheered and saluted with a blast from a trumpet. During the progress of the speech making the name of President Roosevelt was mentioned by one of the speakers and it was received with loud cheers, showing that the Rumanians are not ignorant of our government and are perfectly cognizant of the ruler of their adopted country. Immediately thereafter the society sent a telegram of felicitation to President Roosevelt and informed him that his name had been received with great enthusiasm by all members present.

In harmony with the occasion the Foreign Exchange bank was gayly decorated with the national Rumanian colors, while streamers and flags were draped across the sidewalk.

## MECK SUMMONED BY COMMISSIONER

TO PROVE CHARGE THAT THERE IS "TRAFFICKING IN STATE CERTIFICATES"

Which He Made Before the Meeting of the Central Ohio Teachers' Association.

Columbus, Nov. 11.—Following the sensational statement made by State Senator W. H. Meck of Dayton before the meeting of the Central Ohio Teachers' association on Saturday, in which he said "the trafficking in state certificates must stop," State Commissioner of Common Schools E. A. Jones has demanded that Mr. Meck prove the charges made.

It is looked upon that not only is the statement a reflection upon the honesty and integrity of the members of the board, but that it is also a reflection upon all those who are now holding state certificates. Commissioner Jones has summoned Mr. Meck for hearing on Friday evening, November 22, in the following letter:

"Hon. W. H. Meck, Dayton, O.:  
"Dear Sir: In your address before the members of the Central Ohio Teachers' association some statements were made which cannot pass unnoted, as they reflect upon the character and integrity of men occupying high educational positions in the state.

"You stated with much emphasis that the trafficking in state certificates must stop." This implies that some members of the present board of state school examiners with which you are connected, and four members of which are of my appointment, are guilty of this corrupt practice. This department, the educational interests of the state and the good name of the men placed under suspicion by your charges are vitally concerned in this matter.

"You are hereby requested to submit at once to the state commissioner of common schools in writing definite and specific statements charging members of the present board of state school examiners with trafficking in certificates, or improperly using their influence as institute instructors or refusing to issue the same.

"A hearing will be given in the office of this department on Friday evening, November 22, at 7 o'clock, at which time you are requested to be present and to substantiate the charges made.

"Yours very truly,  
"E. A. JONES."

## Do You Belong to "The Citizens' Committee?"

This committee is made up of the men who sit around an excavation for a new building, whittle pine sticks, spit tobacco juice on the fresh dirt and watch the other fellows work.

It's all right to show interest in new buildings, in town development and progress, but there's a better way.

You can do more good for yourself and the community by resigning from "The Citizens' Committee" and getting into the General Progress Committee.

This committee is the one that PUTS UP THE NEW BUILDINGS, brings new business into town to occupy them, paints the old houses, keeps the sidewalks in good repair, beautifies the front yards, cleans up the back yards and otherwise makes this town a better town to live in.

The General Progress Committee is the Unofficial Town Booming Committee. It really ought to be organized and made official. Let all of us work together for the advancement of the town we live in, and there will be more room around new excavations for the fellows at work to throw out the dirt.

Eternal industry is the price of progress. Let's all fall in line for the General Progress Committee—and then

JUST WATCH THE OLD TOWN GROW.

## UNDER THE ARCH

On the banks of the Grand canal of Venice and directly facing the palace of the doge a great group of men and women were gathered and threatening vengeance on somebody in their midst. On the stone flagging of the canal bank and surrounded by the crowd lay a cursing man, his clothes dripping with water.

Near him and held tightly by two men is a small goblinlike piece of humanity, with a torn dress. His age exceeds twenty. His height, not more than three and one-half feet, his dark hair falling over his broad shoulders and his small, black, twinkling eyes give this small fellow the appearance of a supernatural goblin of the old school.

"Oh, if I was only strong enough! If I could only get this water out of my ears and eyes, wouldn't I have vengeance!" shouts the man on the stones in a raging voice.

"Don't I tell you all 'twas but an accident?" cries out the dwarf, who has no friends in the crowd.

"Throw him into the canal. He shall drown, as he well nigh caused Matteo to do."

"Hold, you wretches!" "Senora Valdois," murmurs the populace in surprise.

"Yes," answered the lady, who is quite young and handsome. "What do you wish with that dwarf?"

"A little devil, senora," said one of the gondoliers, "who in a foul and malicious manner did cast into you this poor and innocent fellow."

"'Twas false," stoutly denied the dwarf. "That base coward—meaning the wet man—'for three days has done naught but drink, and this morning did knock most heavily 'gainst me as I stood on the bank of this canal. Without looking, I pushed him aside, and the first I knew was his cry for help as he tumbled into the water."

"What is your name?" the lady asked.

"Braganza, senora," the dwarf replied.

"You must release this fellow," the lady said.

"But, senora, he is the pest of the city. We must cast him into the canal."

Senora Valdois, making a sudden movement, catches the dwarf and has him at her side.

"Now, at your life's peril, touch him!" cried the brave woman to the revengeful populace.

She turns quickly, pushes the dwarf before her, and both quickly descend the water stairs and enter the senora's gondola, which rapidly disappears under one of the arches of the doge's palace.

Night on the Grand canal of Venice. Senora Valdois, sitting in her gondola, accompanied by Lucretia, her

## REPORT NOT TAINTED

Civic Federation Investigators Not Influenced by Subscribers.

Professor Parsons, an M. O. Member of the Commission, Denies That Corporation Contributions Had Any Influence on Its Report—Resents Newspaper Criticisms.

Professor Frank Parsons, president of the National Municipal Ownership league, was recently interviewed by a representative of the Boston Herald in regard to the testimony before the public service commission in New York to the effect that the Metropolitan Securities company had contributed \$15,000 to the expenses of the commission which studied the problem of municipal ownership here and abroad. "The testimony before the commission," said Mr. Parsons, "contained nothing that in any way reflects on either the Civic federation or the committee of investigation. The sensational elements presented by the press were read into the case by an erroneous interpretation of some of the facts stated in the evidence in connection with some remarks of August Belmont in relation to the investigation.

"A large part of the funds were contributed by various corporations and industrial interests, the Metropolitan company among the number, and Mr. Belmont is quoted as saying that the result of the investigation was very satisfactory. Some newspaper man put those two facts together and concluded that the corporations had got what they expected and paid for.

"As a matter of fact, however, Mr. Belmont's remark meant merely that the work had been thoroughly done and a valuable mass of facts brought out. How far wrong is the impression that corporation contributions had any influence on the character of the results may be seen from the fact that the final resolutions of the commission, summing up the investigation, are signed by every municipal ownership member of the commission.

"Another fact which has a strong bearing on the case is that the supervision of the engineers and experts in Great Britain and the disbursements of all the funds across the water were entrusted to Dr. Milo R. Maltbie, now a member of the New York public service commission and well known as a writer strongly favorable to municipal ownership.

"The truth is that the idea of investigating municipal ownership took form in the Civic federation as early as 1900, or long before Mr. Belmont became president of the federation. "About half the funds, or over \$40,000, was raised by scattered subscriptions from persons all over the country in amounts ranging from \$5 up, and the remainder of the fund was contributed by large industrial interests or men connected with them.

"All the money was spent under the supervision of a committee of five, on which there were two well known municipal ownership representatives and the chairman of which was Professor Goodnow of Columbia university.

"Chairman Ingalls of the committee on investigation, who is also chairman of the board of directors of the Big Four railroad, is one of the fairest and most honorable men in the United States, and the investigation from start to finish was conducted without a shadow of influence from the corporation contributions which were made to the finance committee.

"In fact, the committee on investigation did not know where the money came from nor who the contributors were, with a few trifling exceptions, until the investigation was all finished and the report was in type.

"I wish to say further in all fairness that while I personally do not at all approve of many things in the history of Mr. Belmont's corporations there is no question in my mind but that he and the Civic federation have acted with perfect fairness toward this commission on public ownership.

"The engineers and experts worked in pairs, one of each pair representing municipal ownership and the other representing private ownership. This nearly doubled the cost, but resulted in securing a body of facts, signed by experts of the highest character and representing both sides of the question. This gives the report a very unique character and confers on the statements of facts so agreed upon a degree of authority far beyond that which attaches to any previous investigation."

More Profitable to Sell. The mayor of Harrisville, W. Va., states the situation there as follows: "Some eight years ago this little city purchased a (natural) gas plant at a cost of some \$10,000. The revenue from the plant paid for it and left a surplus. Two years ago we leased the plant to a private corporation at a generous rental."

So far as we know this is the only lighting plant transferred to private parties while being operated at a profit, as this one apparently was. It is noteworthy, however, that the people evidently believed that they could get better results from the plant if it were under private management or they would not have leased it.

Ordered Sold by the Voters. The lighting plant owned by the incorporated village of Waddington, N. Y., was sold after the voters had so ordered at a special election. The president of the village writes briefly, but eloquently: "The property was sold for \$3,000; cost, \$8,000; five years used. The village was sore on the property."

Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women.

For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life.

Records show that it has cured more cases of Female Ills than any other remedy known. Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight, and headache are relieved and permanently cured by its use. It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness, Extreme Lassitude, "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement.

For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

## Restless Nervous

Do you get up in the morning tired, languid, and frequently with headache almost unbearable? You have been unable to rest or sleep. It is nervous exhaustion, and affects the heart, lungs, stomach and all the organs that depend upon the nerves for motive power. What you need is Dr. Miles' Nerve to restore nervous energy and give new life to the organs.

"For years I have been very nervous, suffered terribly with headache, I had always gone to the doctor, and was about to go one day to try him for the last time, when a friend advised me to try Dr. Miles' Restorative Nerve. I purchased a bottle and the results were so satisfactory I have been taking it ever since. 'Miles' Nerve and Liver Pills have done lots of good for me. When I get to feeling nervous again I go for the Nervine bottle and I am so thankful I have something to help me without a doctor bill."—MARIE HARRIS, 314 College St., Piqua, Ohio.

Bliss.

Is it true, what preachers tell us, Will it happen as we hear, That we cannot take our money When we leave this mortal sphere?

Is it true, when gone to glory, Of our earthly shekels stripped, We will dress in flowing garments Of a fashion non-descript?

Now, I do not ask for millions, Like the plutocratic soul, But I weep for joys denied me While the endless ages roll.

Think what happiness would thrill us In the regions of the blest, If we always found a quarter In the previous season's vest!

## WEDDINGS.

### LUTHER-POLLARD.

A very pretty wedding was so-  
lemnized at the home of Mrs. Eva Pol-  
land on Sunday evening, when her  
daughter Miss Fern, was united in  
holy wedlock to Mr. Martin Luther.  
The ceremony was solemnized at 8  
o'clock by the Rev. H. Newton Miller  
in front of a bower of ferns and flow-  
ers. The bride, Miss Pollard, was  
charmingly gowned in white chiffon  
with arille point lace. The bride was  
attended by Miss Eva Richardson who  
was prettily costumed in white mulle  
with Valenciennes lace. The groom's  
attendant was Mr. Harry Whitaker.

After the ceremony a delicious sup-  
per was served about forty guests the  
following being seated at the bride's  
table which was a pretty creation of  
pink and white chrysanthemums: Mr.  
and Mrs. Luther, Mr. and Mrs. Chas.  
Luther, Mr. and Mrs. Joseph Reed,  
Rev. Mr. Miller, Mrs. Eva Pollard,  
Mr. and Mrs. Clarence Luther, Miss  
Eva Richardson and Mr. Harry Whit-  
aker.

Mr. and Mrs. Luther left at 11  
o'clock for Springfield and Dayton,  
where they will visit their relatives.  
On their return they will reside on  
Oakwood avenue until spring.

Mrs. Luther has been employed as  
a dressmaker at the establishment of  
Miss Miller for several years, and of  
late has been with the H. H. Griggs  
company. Mr. Luther is a popular  
employee of the C. C. Metz meat mar-  
ket.

### DAUGHERTY-TAYLOR.

Sunday afternoon at 3 o'clock at  
the U. B. parsonage, Rev. Sager Try-  
on officiating, Mr. James Daugherty  
and Miss Lorena Taylor, were mar-  
ried. The bride is the daughter of  
Mr. and Mrs. Wm. Taylor of 132 Oak-  
wood avenue. The groom is a glass  
worker at the Heisey factory.

Mr. and Mrs. Daugherty will reside  
on Oakwood avenue. Their many  
friends extend congratulations.

## SUPERINTENDENT OF B. & O. RAILROAD MEETS WITH COUNCIL

Division Superintendent J. F. Irwin  
of the B. and O., and members of the  
city council met Monday afternoon at  
2 o'clock and discussed matters per-  
taining to the Second street under-  
ground passage. City Engineer Wells  
has been instructed to prepare blue  
prints and furnish an estimate. The  
matter will be brought up before the  
council at an early date, probably at  
a meeting to be held tonight, and it  
is probable that steps will be taken  
to build the tunnel as soon as the  
matter can be arranged with the rail-  
ways.

The passage way would be a grand  
improvement and would consist of a  
roadway, road for street railway and  
a foot walk. In case an agreement can  
be reached and council make the ap-  
propriation work will probably be be-  
gun at once.

### INFANT'S DEATH.

## THE REASON

Why Frank D. Hall Continues to Re-  
commend Vinol.

First Because it is not a patent  
medicine and it contains besides tonic  
iron all of the medicinal curative ele-  
ments of cod liver oil actually taken  
from fresh cods' livers, but without  
a drop of oil to nauseate and upset  
the stomach and retard its work;  
therefore, wherever old-fashioned cod  
liver oil or emulsions will do good,  
Vinol will do far more good.

Second: Because Vinol acts first  
upon the stomach, creates a healthy  
appetite, strengthens and tones up  
the digestive organs, purifies and en-  
riches the blood, and, in a general  
manner, restores health and strength.

Third: Because Vinol contains no  
injurious drugs to react upon the sys-  
tem; every ingredient being named  
on the label a patient knows exactly  
what he is taking.

Fourth: Because we never sold  
anything in our store that gave such  
universal satisfaction for old people,  
weak, sickly women and children,  
nursing mothers, and to build up the  
system after a severe sickness, and  
for relieving hacking coughs, chronic  
colds, bronchitis and all throat and  
lung troubles.

Try Vinol on your guarantee. Frank

## DEDICATION

OF "STATIONS OF THE CROSS" AT  
MT. CALVARY CEMETERY  
SUNDAY AFTERNOON.

Many People Present and Listened to  
the Impressive Services in Con-  
nection With Ceremony.

The dedication of the stations of  
the Cross took place Sunday after-  
noon, according to program, at Mt.  
Calvary cemetery, and was attended  
by a large concourse of people, from  
all over the city. The ceremonies be-  
gan with the hymn to the Holy Ghost,  
"Veni Creator Spiritus," and after  
this was ended the Rev. Father B.  
M. O'Boylan blessed all the wooden  
crosses and began the meditations  
and prayer usually said on occasions  
such as this. The choir sang the  
great hymn of the middle ages, begin-  
ning with the lines "Stabat Mater  
Dolorosa," in which the sorrows and  
glories of the cross are celebrated.

As the procession moved from sta-  
tion to station the Uniformed Rank  
of the Knights of St. John, who acted  
as a guard of honor, came to atten-  
tion and presented swords, and the  
choir then sang a strophe of the  
hymn, which was followed in each  
case by the meditation and prayers.  
When the last cross was reached and  
the meditations in which the suffer-  
ings of Christ were depicted, were  
ended, the Rev. Father O'Boylan,  
taking for his text the words of St.  
Paul, "God forbid that I should glory  
in naught save in the cross of Christ,"  
delivered a sermon on the power and  
triumphs of the cross, tracing in  
rapid vision its glorious history from  
Calvary down the ages, through per-  
secution and opposition from every  
side until its final establishment of  
history in the civilization in which  
every Christian station now enjoys.

The scene from Mt. Calvary cemetery  
is by far the finest of any surrounding  
our city and as the speaker drew his  
fervent discourse to a close he point-  
ed towards the setting sun and said  
that what appeared to their vision in  
the distant west was the meeting of  
earth and sky, was not go in reality,  
for a wide vista intervened which op-  
ened into infinite space. That sun  
which painted such glory all around  
was twelve hundred thousand times  
larger than the earth, and the Holy  
One who gave significance to the  
cross was not only its Creator, but  
the Creator of all the suns in the uni-  
verse, and yet He did not think it be-  
neath Him to die on the cross for our  
sakes. And why? Because man is  
the only creature worthy of His love.  
Within these little heads of ours we  
can take in all the glowing orbs that  
revolve in space and nothing but the  
Infinite can satisfy man's intellect of  
love for truth and beauty. Hence  
there is a mutual relationship which  
binds man to his Creator. At the  
close of the sermon the hymn of  
praise, "Holy God, We Praise Thy  
Name," was sung, and the audience  
dispersed.

Eight plain drunks were handed the  
usual lemon in police court Monday  
morning, after their celebration Sat-  
urday and Sunday.

Over 70 per cent of the natives of  
India till the land; hence the popu-  
lation is scattered, and their power  
of co-operation is greatly lessened.

## A WOMAN'S WORDS OF HEARTFELT PRAISE

"I think Father John's Medicine is  
the best remedy for all coughs and  
lung or bronchial troubles. I have  
it in the house all of the time, it al-  
ways helps my colds. My mother had  
a bad cough and your medicine has  
helped her enough a great deal," writes  
Mrs. Robert Peel, 4811 Franklin street,  
Frankford, Phila.

Remember, Father John's Medicine  
is not a patent medicine, but the pre-  
scription of the eminent specialist who  
prescribed it for the late Rev. Father  
John O'Brien by whom it was recom-  
mended and from whom it derived its  
name. It is free from opium, mor-  
phine or any of the poisonous, nerve-  
deadening drugs or weakening stimu-  
lants upon which 99 per cent of patent  
medicines, so-called cough syrups and  
balsams depend for their temporary  
effect, and which are dangerous—you  
are warned against them. 50 years in  
use. For sale by The City Drug store,  
Newark, Ohio.

### Vanished Animals.

In the latter part of the mesozoic age  
there was a great inland ocean, spread-  
ing over a large part of the present con-  
tinent. The lands then above water  
were covered with a flora peculiar to  
the times and were inhabited by some  
of the animals which later distinguished  
the cenozoic age. In the seas were  
reptiles, fishes and turtles of gigantic  
proportions, armed for offense or de-  
fense. There were also oysterlike bi-  
valves, with enormous shells, three or  
four feet in diameter, the meat of  
which would have fed many people.  
In time this great ocean, swarming  
with vigorous life, disappeared. Moun-  
tain ranges and plains gradually arose,  
casting forth the waters and leaving  
the monsters to die and bleach in  
tertiary suns. As the waters remain-  
ing divided into smaller tracts they  
gradually lost their saline stability.  
The stronger monsters gorged on the  
weaker tribes until they, too, stranded  
on rising sand bars, lost vitality and  
perished as the waters freshened. In  
imagination we can picture the strong-  
est, bereft of their food supply, at last  
floundering in the shallow pools until  
all remaining mired or starved.

der 50 years of age when inaugu-  
rated—Pierce, Grant, Garfield, Cleve-  
land and Roosevelt.

## THE GENERAL WELFARE.

The one clause of the Federal Constitution which President Roosevelt takes seriously, and which, as he construes it, makes all other clauses superfluous and nugatory, is the "general welfare" clause. He regards himself as the sole judge of the general welfare. His "policies" are all directed to the general welfare. He knows nothing, and he cares for nothing, but the general welfare. Constitutional limitations upon his power or upon the power of Congress must be regarded as strait-jackets, and shattered accordingly. For to him, the general welfare means Roosevelt's political welfare, the increase of his power, the destruction of local self-government, and the concentration of all political power in his own hands. This Hamiltonian interpretation of the Constitution is nothing new in Republican politics. It is merely intensified under the present administration.

## Looking After Number One.

The seedy actor shuffled his feet and looked into his hat apologetically. He laughed conscientiously at the joke the manager made, but it was a hollow laugh.

In fact, Mr. Perkins, otherwise Claude Cremorne, juvenile lead, felt hollow generally, particularly in the part which should have contained his dinner.

"A sovereign on account of my salary would be of inestimable service to me just now," he murmured to the manager. "You can deduct it at the end of the week, you know."

"Ah, yes, dear old darling fellow," said the manager benignly, "that's all very well, don't you know. But the difficulty comes in here. Most likely I can't be able to pay my salaries at all at the end of the week, and if I give you a sovereign now where should I be then? No, be sensible, dear boy."

A new amusement has established itself with the students of Denison. This amusement consists in cross country walks to various towns at which the football team plays. A few weeks ago a party of five students walked to Columbus to see the O. S. U.-Denison game. Last Saturday another party composed of Messrs. K. I. Jewett, D. N. Jewett, H. Lamson, W. Huffman, J. Munn and H. Conntable made the trip from Granville to Gambier, a distance of about thirty-five miles. This trip was made in eight hours, counting rests and meals.

Next Saturday another party will undertake the trip to Delaware, a trip of 60 miles, to be made in two days.

The college officials have been having trouble with some of the students regarding pranks committed on Halloween night. It is about time to abolish Halloween devastation and destruction of property. It is simply promoting a spirit of vandalism and lawlessness on the part of the youngsters.

William Davis, living several miles

north of the village, had an old fashioned corn husking bee on his farm Saturday. A number of his neighbors gathered and by two o'clock in the afternoon the corn was all worked out and the fodder shocked. Afterwards the ladies of the house set a sumptuous dinner. The huskers had a merry time and some red stunts were pulled off in shedding the ears most rapidly.

Mr. Lloyd Minear enjoyed a visit from his brother of Springfield over Sunday.

Miss Ruth Hopkins and Miss Nellie Billman of Dayton, spent Saturday and Sunday in Granville, the guests of Miss Bess Billman.

Miss Dorothy Kibler, Miss Anna Beattie, Miss Carpenter of Gallipolis, and the Misses Rut Hopkins and Nellie Billman were guests at the Phi Gamma Delta house Sunday at dinner.

At this writing it is not known when the funeral services will be held.

## GROUP SHOWING U. S. MINISTER TO GUATEMALA.

1. JOSEPH W. LEE, 2. MISS STEVENS, 3. SECRETARY ROSE, 4. MISS ROSE.

Washington, Nov. 9.—Joseph W. J. Lee, formerly of the Rough Riders, now American Minister to Guatemala, whose engagement to Miss Helen Squires, youngest daughter to Herbert G. Squires, American Minister to Panama, was recently announced, has returned to Washington on sick leave to find that certain Americans in Guatemala have made charges affecting his service at the Central American capital.

At the same time the Countess Festetics, divorced wife of Count Rudolph Festetics, an Austrian nobleman, who has lived much in New

York, is reported to have cabled to Minister Squires that Mr. Lee was first engaged to her and that she has not and will not release him. This has not contributed to Mr. Lee's peace of mind, already disturbed by his broken health, but he states that the charges against him are unfounded and that no tie exists between himself and the Countess Festetics, the only understanding which ever existed having been severed by mutual consent months ago. It is understood that there has been no change in his engagement to Miss Squires.

# JUDGE S. L. BLACK AT THE Y. M. C. A.

ON THE WORK DONE BY THE JUVENILE COURTS THROUGHOUT OHIO.

And Urges the Necessity of Laws Giving More Extended Jurisdiction to This Tribunal.

Judge Samuel L. Black of Columbus delivered a fine lecture in the Y. M. C. A. auditorium Sunday afternoon on "The Boy Problem." His address showed a wide acquaintance with the average boy, gleaned from years of contact with them in the

JUDGE S. L. BLACK.

Juvenile court in Columbus. The spacious hall was well filled with interested listeners and the remarks from one of the best known juvenile court judges in the state proved decidedly instructive.

Judge Black was introduced by Judge E. M. P. Bristor of the Newark juvenile court, who introduced his remarks by stating that to his mind the most important legislation since Lincoln signed the Emancipation Proclamation that freed 4,000,000 slaves, was the legislation of the juvenile court laws.

Judge Black was emphatic in the statement that the present laws of the state need changing so as to give the juvenile court more jurisdiction throughout the state of Ohio. Two laws that should be passed according to the judge, is one to prevent the sending of children to saloons to purchase intoxicants and to prevent children from entering saloons on business, such as newsboys and messenger boys.

If a child go wrong in that case it is the parent or the saloon keeper that is to blame.

Another law that should be passed is one that should compel the father of a family to give the money he earns while working in the work house or penitentiary to support his family. In that case the father is to blame if the children become criminals through want. Another case was mentioned where a mother compelled her boy to steal coal to cook the family meals with.

A mother that forced her boy to steal a horse, is now serving time in the Franklin county jail, as in the eye of the law she was the real criminal, and not the boy. Many instances were mentioned where boys and girls had gone wrong simply through the fault of the parents.

## AMUSEMENTS

### WILTON LACKAYE.

This year Mr. Lackaye will be seen for the first time in America in Hall Caine's "The Bondman." The date of his engagement is next Thursday evening, November 14, at the Auditorium.

"The Bondman" was first produced a little over a year ago at the Drury Lane theater, London, where it created a sensation, running until the pantomime season came in, when it was transferred to the Adelphi theater. Last spring it again returned

est to the play. A company of 60 people will support Mr. Lackaye and included in the large cast are many well known players.

### GREAT YOUNG VIRTUOSO.

Francis McMillen the young violinist, came back to America last year after being abroad six years studying. He played well before he went away from home—so well that they all thought he ought to go away. He has worked to much purpose in the meantime—so before he began to

be a perfect support, and he is unobtrusive, but somehow you always get to admiring his work too, and to realize that you are really listening not to a single artist, but to two of them. In addition to Macmillen and Hageman there will be Mme. Rosina Van Dyk, prima donna soprano of the Royal opera of Berlin and Amsterdam. At the Auditorium Wednesday evening, November 27.

### SWEET KITTY BELLAIRS.

"The Beauty of Bath" has not ceased to be a will-o'-the-wisp flitting from the stage. For David Belasco will bring her in the person of "Sweet Kitty Bellairs" to the Auditorium as one of the chief attractions of the new dramatic year.

### ORPHIUM THEATER.

Don't miss the show at the Orphium this week as it is conceded to be a good one, headed by the Manola family, five in number, high class acrobats and equilibrists an act that has won the most favorable comment in both Europe and America. Mlle. Manola is acknowledged to be the strongest woman in the world.

Stith and Stith, novelty plate spinners, have an act that is very novel. Mr. and Mrs. Jack Gordon, comedy sketch artists, are good and Ed Baxter the blackface monologue man, who is making a decided hit, especially last week at the Bijou, Wheeling, W. Va. Mr. Ira Harnes will sing the picture melody, and the moving pictures will be a feature film, "The Trials of a Bootblack." Seats for the entire week on sale at box office.

### Letter Writing Made Easy.

"The picture postal card is not the only factor that is reducing letter writing to a lost art," said the woman who has many correspondents. "The newspaper clipping is also a serious foe to the well written letter. Almost every day I get a heavy mail, and frequently half the communications are made up largely of clippings from the daily press. Persons who, if obliged to do their own writing, would express some opinion on books, plays, clothes, vacations, clubs and current events can find something on those very subjects in the daily paper. So, instead of writing, they simply cut out the article that meets their needs, paste it on to a sheet of paper, say 'These are my sentiments, too,' and thus expeditiously conduct their correspondence."

"I must confess I am falling into the same pernicious habit. Yesterday I wanted to jolly a friend who has a strong predilection for ghostly literature. I read a paragraph in a paper that exactly expressed my meaning, so instead of digging into my own thoughts I sent the clipping. To another friend whom I wished to interest in a book I sent another printed article that admirably answered the purpose. Since every subject can be found adequately treated in the newspaper and on post cards it is no wonder that an accomplished letter writer is now a curiosity."—New York Press.

### AN IMPRESSIVE SERVICE.

Editor of the Advocate:—One of the most impressive services wherein our glorious banner figured was witnessed by your writer at the Music Hall, Sunday morning, that of the service of dedicating a beautiful "Star Spangled Banner" to the use of the local Roumanian Society. I speak only of its impressiveness with reference to the country of which it is an emblem, and a true translation of our glorious motto: "The land of the free and the home of the brave." What a grand and sublime moment it was for any true born American, when directed by their highest authority, their spiritual advisers, to take "Old Glory", the emblem of their adopted country and stand by it until death. Cheers (or words to that effect) were given for America, its president, Mr. Roosevelt, and the twice blessed flag. This done by representatives of a race who are called "Hunkeys" by ignorant, selfish persons, who object to foreign emigration, not thinking that if their forefathers had not been foreigners they themselves would not be citizens of America. Such men as the members of the society who again showed their allegiance to our grand emblem can only make the best citizens. Such a service as the one held at Music Hall should have been attended by hundreds of Americans instead of the handful that were present. The best intention of becoming an American citizen is a public allegiance to the flag.

to Drury Lane, the entire run comprising the history of this historical play house. In addition "The Bondman" has been played in the principal cities of England, or as they call it across the water, in "the provinces." The success met with in England caused all the leading American managers to endeavor to obtain the rights to this country. In this Wm. A. Brady was successful principally because in Mr. Lackaye this manager has a star well able to do justice to the powerful character of "Jason" the leading part in the play.

The story of the play follows very closely that outlined in Mr. Caine's novel of the same name, which itself ran into several big editions. Six scenes are required in which to tell the story and these scenes are of such an interesting and novel character, that they lend much additional inter-

est to the play. A company of 60 people will support Mr. Lackaye and included in the large cast are many well known players.

THE OBSERVATORY OF THE PIC DU MIDI. CONSTRUCTION OF A CUPOLA FOR THE INSTALLATION OF A GRAND EQUATORIAL

The National French observatory of the Pic du Midi is placed at an altitude of three thousand metres. Its founder was General de Nansouty, and at first and for a long time afterward it was devoted wholly to meteorological work. Later the director, M. Marchand, and his collaborators extended their efforts to astronomical observations, the site in this rarified atmosphere being especially adapted to the scrutiny of the heavens. Finally the directors of the observatory of Toulouse undertook to add the dome which is seen in the picture, and in which will be placed later the great equatorial telescope.

### HAD NEVER SEEN SISTER.

Marion, Nov. 11.—George B. Biquet of Oklahoma was united here on Saturday with Mrs. M. B. Scott, a sister whom he had never seen. Biquet had been separated from his family 33 years. Each believed the other dead. They learned of each other through a newspaper adlet.

## S.S.S. MADE FROM ROOTS AND HERBS A SAFE AND RELIABLE BLOOD PURIFIER

In the time of our forefathers the forests and fields were the only laboratories from which they could procure their medicines. They searched out and compounded the roots, herbs and barks into remedies, many of which have been handed down to succeeding generations, and continuously used with satisfactory results. Among the very best of these old time preparations is S. S. S., a medicine made entirely from roots, herbs and barks, in such combination as to make it the greatest of all blood purifiers. This absolute vegetable purifier of S. S. S. makes it the one medicine that may be used without fear of harmful results in any way. Most blood medicines on the market contain mercury, potash, or some other strong mineral. These act with bad effect on the system, upsetting the stomach, interfering with the digestion, affecting the bowels, and when used for a prolonged period of time often cause salivation. No such effects ever result from the use of S. S. S., and it may be taken by children as safely as by older people. For Rheumatism, Catarrh, Sores and Ulcers, Malaria, Scrofula, Skin Diseases, and all other troubles caused by impure or poisoned blood, S. S. S. is a perfect remedy. It goes down into the circulation and removes all poisons, impurities, humors or uncleanly matter, and makes the blood pure and rich. It eliminates every particle of the taint of inherited blood trouble, purifies and strengthens the weak, deteriorated blood and establishes the foundation for good health. S. S. S. is Nature's Blood Purifier and its many years of successful service, with a steadily increasing demand for it, is the best evidence of its value in all blood troubles. Book on the blood and any medical advice free of charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

ables and drove away in the auto. She was found lying in West One Hundred and Fifth street unconscious. The auto, an electric machine and easy to handle, was found on Lorain avenue, but the man had disappeared.

Mrs. Kindler was robbed of a gold watch, two diamond rings and her purse containing \$45 in cash.

### HACKS THROAT AND WRISTS, BUT LIVES.

Marletta, Nov. 11.—Although he slashed his throat three times on one side, once on the other, cut both arms at the elbows and one wrist, partly severing the arteries in all places in an attempt at killing himself, Asa Schoonover, an inmate of the county infirmary, is still alive and will probably recover. Schoonover is 52 years old and was once well to do, but several years ago became estranged from his family after he had lost most of his wealth.

### LEFT BLOODY TRAIL.

Alliance, Nov. 11.—Walter Blumlaugh, 14 years old, near burglars trying to break into the house, where he was alone with his 16 year old sister. He fired his father's revolver from the window at a masked man. The man ran, leaving a trail of blood.

## NEW FOUNDRY FOR THIS CITY

### TO MANUFACTURE A NEW GAS STOVE PATENTED BY NEWARK MAN.

Company of Newark Men Has Been Incorporated and Wan to Remove From Somerset.

If the plans of the promoters turn out well Newark will have another stove foundry in the near future. The Early Sun Stove company was incorporated this morning under the state law with a capital stock of \$5,000 and the incorporators, Charles Dean, Charles McAdam, George Wise, Edward Mathias and William Maholin, are all Newark men. The stockholders are the same with the addition of Philip Smythe.

The organization was completed and the following officers were elected: President, Charles Dean; vice president, Edward Mathias; secretary, treasurer, William Maholin; superintendent, George Wise. The company will manufacture gas and coal heaters, the first cast iron gas heater ever put upon the market. It is claimed by the men interested that the patented radiation will furnish more heat at one-half the cost of gas than any heater on the market.

Patented devices also prevent the sweating of the stove and prevents the escaping fumes from entering the room should the gas go out. The stove is as strong and substantial as the ordinary heater, neat in appearance and will sell at the same price as the good heaters do now. It is the invention of George Wise.

One stove has been in use for the past month and has proved entirely satisfactory to the men who will market it. The company will commence the manufacture of the stove immediately, and the first heat will be this week. One hundred molders will be employed at the factory which is now located in Somerset, and a number of other men necessary to the work.

If satisfactory arrangements can be completed the factory will be moved to Newark, but at the present time this seems impossible, but every thing possible is being done to add the foundry to the enterprises of this city. The men interested in the new factory are all earnest citizens of this city and are anxious to boom it as much as possible, and if a satisfactory location can be secured the foundry may move here within the year.

## JIM COSTLY HIT WITH TONGS BY FELLOW CONVICT

Columbus, Nov. 11.—When James Costly, serving 10 years from Licking county for burglary and grand larceny, expatriated with Clarence Van Meier serving four years from Franklin county for grand larceny, Clarence "soaked" Costly over the head with a pair of tongs, inflicting a small wound on the convict's right forehead and flooring him. Guards interfered before any more damage was done. The fight occurred in the Baldwin force room. In prison court Costly got off, but the fight was costly to Van Meier who had thirty days time taken away on condition, and reduced to the third grade.

Attorney Ladigh has moved his office from 49 North Third street to rooms 702 and 704 Newark Trust Building.

## MINISTERS

### PLAYED UNMERCIFULLY BY RABBI EMIL HIRSCH AT CHICAGO SUNDAY.

Principal Duties Nowadays Are to Marry Couples and Say Nice Things at unctious.

Chicago Nov. 11.—Ministers of today were played unmercifully by Rabbi Emil G. Hirsch at Sinai temple yesterday. Religion is served "a la mode these days," he declared, because ministers spend most of their time seeing that "a pleasant time is had" at religious gatherings. "The minister is ever at the call of Mr. Moneybags, Mrs. Moneybags and all the little Moneybags," said he. "What they will he must do. The penalty is loss of his position, or job, as it is called nowadays."

"Instead of the vigorous leaders and the power in the community that he should be and that he was, the minister has returned to the original work of the pastor—the tender of the flock—the one who stands by and smiles while his flock enjoys itself and grows fat."

"The principal work of the pastor of today is to officiate at weddings and then say nice things at funerals."

## SOPHOMORE SON HELPS HAZE HIS FATHER NOW A FRESHMAN

Columbia, Mo., Nov. 11.—Earl Van Natta is a sophomore at Missouri State university. His father, of Vandalia, Mo., Ellsworth Van Natta, is a freshman, and what this son will do to his dad, with the remembrance of lickings in childhood ever paramount, will be a caution and a plenty. Already the younger Van Natta, as a sophomore, has aided in compelling the "Governor" to discard his hat and don one of the dinky little freshman caps. A strange sight it was for the gray-haired Van Natta to go about adorned in such headgear, but he realized both the necessity and propriety of acquiescence. Moreover, he got even with his young hopeful a few days later when the class rush came. "Daddy" Van Natta lined up with the freshmen and the kid with the sophs, and when the smoke cleared away there stood the old man, waving three fourths of his hair's shirt. Papa Van Natta did not succeed in reaching the pennant at the top of a lamp post, but he did not waver in the line until the banner had been hauled down by one of Earl's classmates.

The elder Van Natta is 44 years old and prematurely gray. His son will be 20 years old on November 22. The father was a student in the State University 23 years ago. Last summer he concluded to finish his education, and matriculated at the Agricultural department of the university. Mr. Van Natta, Sr., intends to complete the four years' course.

Marion, Nov. 11.—Local directors of the Marion O-P team are willing for Youngstown, Akron, New Castle and Sharon to withdraw from the league provided the northern teams pay \$10,000 to the southern teams—Newark, Lancaster, Mansfield and Marion. If the northern cities want to redistrict, they must pay this amount. It virtually means that the same teams will again form the league as last year.

asts thronged U field Saturday afternoon. Beauty and fashion were in the great crowd. State's alumni turned out in great numbers to cheer to victory the Scarlet and Gray in a real battle for the state championship. From the viewpoint of a spectator, the game was one of the greatest of the year. The play was open nearly all of the way. The game as a whole showed just what new rules have done for the greatest of all college sports. Here were two teams as evenly matched in the line as it is possible to get them. Each could make some gains, but neither could gain consistently. At the old style of play the score would have been 0 to 0 with nobody satisfied. The forward pass and kindred innovations worked the change that made possible one of the best games seen at U field in years.

## NEWARK OFFICER ORDERED TO REPORT

Capt. Milton Monnett of Co. G, this city, has been ordered to Columbus to present himself for examination at the adjutant general's office on Friday, November 15.

Capt. Monnett recently succeeded Harry G. Smart as captain of the Newark company of national guardsmen, the latter gentleman having accepted a position in Chicago and resigned his commission.

Capt. Monnett has had a great deal of army experience having served seven years with the regulars, four with the infantry and three as a trooper. He is well qualified to fill the important position to which his comrades have elected him and no doubt will bring the company up to a standard of perfection equalled by no other in the regiment.

## FORMER NEWARKITE IN BIG BALLOON

Lieutenant Robert Henderson, a former Newark resident now with the battleship Missouri, was one of the occupants of the balloon Pommein, in a flight which was made Saturday from Philadelphia, the big bag landing in a sparsely settled district in the Bronx of New York.

In the party which made the flight was Dr. Julian P. Thomas, who recently purchased the big German balloon, Mrs. Thomas, Capt. T. T. Lovelace, Oscar Erosloeh of the Aero club, and Lieut. Robert Henderson, of the battleship Missouri.

It will be remembered that the Pommein passed over this city on the afternoon of Tuesday October 22, during the flight of the big air ships which participated in the international race. It is a strange coincidence that a former Newark citizen should enjoy a trip through the air in the same balloon.

Mahomd Cuffee, a Newark boy and a relative of Amos Bruce, of this city, is also a member of the Missouri's crew, serving as midshipman.

## C. O. D. MAN'S DOINGS

Tells a Story of Misfortunes and Human Ingratitude.

### MEETS A CATOSH YOUNG MAN

'Twas Rather a Lucky Acquaintance For the Dilapidated Gentleman, as He Earns Some Easy Money in a Game of Bluff.

[Copyright, 1907, by Homer Sprague.] They call me the C. O. D. man because it's always cash on delivery with me—that is, I deliver my tale of misfortune and expect the cash to follow. This saves time and bookkeeping and office rent, and your cash register shows you what you have on hand at any minute. I never crowd myself in among gentlemen unless strongly urged, and I never affiliate with other tramps when I can find a straw stack for myself. Not that I think I'm worse than any other gentleman or

TAPPED HIM ONE, TWO, THREE, LIGHTLY ON THE CHIN.

better than any other tramp, but I am somewhat conservative by nature. It is only when I am collared by the police that I look haughty and fall back upon my Kuckerböcker ancestry and my blue blood, and if I get thirty in the cooler I take it out in a dignified fashion instead of making a squeal.

I was hanging about Philadelphia a few weeks ago to study the graft system and make more or less a success of my C. O. D. invention when one evening as I was strolling about I met up with a catosh young man. I could tell that he belonged to the swagger set while he was yet a block away. He had the proper air and his hat on the back of his head. I sized him up for a young man with a rich papa, a doting mother and a mouth for quail on toast and dry champagne.

In doing business with the public I have a little story to relate. The story is accompanied by a proper air of hope lost forever, and it includes thirteen separate and distinct misfortunes and a chunk of human ingratitude as big as a house. A very few persons bear the story and swear. The great majority either preserve a respectful silence and tender me a nickel at its conclusion or weep copiously and tender me a dime about getting too near the cage of the Bengal tiger when visiting the zoo. I might not have tackled the catosh young man but for his perturbed look. I saw that there had been an epoch of some sort in his rosy life and I struck an attitude and began chapter 1 of my serial. I hadn't got off ten lines when he interrupted with:

"Slow it, cully. Where were you born?"

"Born in the Lap of Luxury."

"In the lap of luxury," says I, "but at the early age of ten a trust squeezed my old man out of his tannery and threw me on a cold world."

"Where's your palace car?"

"Switched off and left behind."

"And your valet?"

"Dropped dead the other day of heart disease when I handed him a quarter, and I'm afraid I can't fill his place."

"I should say your allowance wasn't over \$50 a month," he goes on as he looks at the patches on my knees.

"It's a trifle under that just at present," says I, "but I'm standing in with a contractor to steal the embossed on ten threecent stamps, and I may be able to buy a third auto a month hence."

"Look here, cully," says the catosh young man as he drops his banter and grows serious and breathes champagne all over the block. "I think I know a dilapidated gentleman when I see one."

"D. G. (dilapidated gentleman) hits me to a dot—some dilapidation, some gentleman. The two make a fair combination. Go ahead."

"And you've got breezy?"

"Lead and see. Reaching out for nickels for the last fifteen years has given me the muscles of a Sandow. Reaching is the best thing in the world for shoulder exercise, even if you don't get anything."

"And being a dilapidated gentleman with loose skin ought to know how to put up your dukes?"

"I'm up," I put up and tapped him on the chin, two, three, lightly on the chin, but at this he kept an eye on a policeman across the street.

"Howd'ya," says the catosh young man as I drop my hands. "I'll be right to it. S. S. S. (swell swell swell) swell a hole, and a gamoot with a lip in his mouth and not brains enough in his head to fill a thimble smashed me in the nose with a pair of gloves last night and I want revenge, but I don't

## The Regal Shoe

Although we have reproduced custom models in Regals for fourteen years, we have never shown a style that suited more people and fitted more satisfactorily than the Earl. As shown by the photograph, this shoe has clean-cut lines, full rounding toe, ample treading surface and a slight swing which is accentuated by the extension sole. To give the maximum of wear and comfort with the fine appearance expected by Regal wearers, we know of no leather equal to Black King Calf. Accordingly, we cut the vamp and top of the Earl from this famous stock. The outsoles, inner soles, counters, heels and toe-pieces are of Oak-Bark-Tanned leather, insuring extra wearing qualities.

## CARLISLE INDIANS' 23, HARVARD 15.

Columbus, Nov. 11.—It was a contest between the forward pas. and the place kick. The place kick won. Score, Ohio State 22, Oberlin 10. Eight thousand football enthusiasts

by the score of 23 to 15.

A crowd of 30,000 persons witnessed an exceptionally exciting game. The significance of the Indians' score is

very evident, as it was the Indians won with a vengeance. Had the defeat come to Harvard as a surprise there might have been some reason to berate the Crimson, but being out-

played by a team which was acknowledged a dangerous one and had previously beaten one of the big college teams, the result was not entirely unexpected.

Probate Judge Bristor decided the long continued divorce case of Geo. M. Miller against his wife, Anna Miller. ## HUNTING ACCIDENTS CAN BE AVOIDED

The open season for hunting rabbits and quails is near at hand and it is quite likely that hunting accidents will fill the news columns again. Every year some of those who go into the fields to kill are themselves hurt or killed. The needlessness of these accidents is one of their worst features. No man, whether he injures some one else or himself, need have done so had he used ordinary common sense. The gunner who drags his gun under a fence with his muzzle pointed toward himself or any one else cannot be excused for his mistake. Nor can the one who shoots at the first thing he sees on the supposition that it is game, and wounds another person, or who fires at random into the bushes he supposes game is concealed, be let off lightly. He has no right to fire until he is certain, beyond all doubt, of what he is aiming at. "It is better to be safe than sorry," and anyone who is too impatient and too careless to make sure of what he is shooting at is not fit to be trusted with a gun.

## UNCONSCIOUS

REMAINS EDWARD HUPP WHO ATTEMPTED SUICIDE BY HANGING.

No Reason Can Be Assigned for the Rash Act of Bowing Green Township Farmer.

Brownsville, O., Nov. 11.—Edward Hupp, who attempted suicide by hanging himself from a rafter in his barn Saturday morning and was discovered by his son shortly after he had committed the deed and cut down, still remains unconscious.

Members of the family can give no reason for the rash act other than that Mr. Hupp was despondent on account of ill health and had been unwell all summer. He had been laboring under mental aberration for some time, but the family did not anticipate that he would attempt to end his life.

Saturday morning members of his family greeted him, and he replied in his customary manner and shortly after left for the barn to do the feeding.

His son Robert followed the father into the barn and discovered him as above stated. After he had cut him down he found that life was not extinct, and hastily summoned medical assistance. The physicians think that there is no dislocation of any bones, and that he will recover from his frightful experience. Monday morning, although still unconscious, he appeared to be resting easy and apparently was not suffering.

## DEATH CLAIMS AGED PIONEER

JOHN MONTGOMERY, OCTOGENARIAN STOCK RAISER OF LICKING COUNTY

Died at His Home in Granville Township After Prolonged Illness—Other Deaths.

Granville, O., Nov. 11.—Mr. John Montgomery, one of the oldest, best known and most highly respected residents of Licking county, died at his home in Granville township, several miles west of this place on Friday night at 11 o'clock, after an illness of some time with a complication of diseases, aged about 82 years.

The deceased was a member of the well known Montgomery family of Licking county, and the eighth child of Henry Montgomery, one of the pioneer settlers of Licking county. He was born September 17, 1825, and received his education in the county schools and at Denison university. When only 19 years old he began teaching, and taught school for six years. church was his gift. When still very young he removed with his parents to Harrison township, where he lived for about a quarter of a century, when he removed to Granville township, where he died on the farm on which he had lived over forty years. At the time of his death Mr. Montgomery was the owner of 1350 acres of land. When quite young Mr. Montgomery was an extensive shipper of stock and no man in the county was better known than he, his business bringing him in contact with the farmers all over the county. After continuing in this business for some years he became a breeder of fine shorthorn cattle, and his reputation extended outside of the United States. He married Miss Margaret Lane, a most estimable woman, on November 8, 1848, and to this union were born six children, Benjamin, who died in infancy, Henry, who lives on the old farm in Harrison township, Mrs. Emma Hayes of this place, Wesley Montgomery of Newark, Charles who died when only five years of age, and Frank of Buffalo. His wife died many years ago and Mr. Montgomery was again married, this time to Miss Sarah Philter of London, O., on December 25, 1872. Three children were born of this union, Howard Montgomery of Falls River, Kansas, and Chester and Selma, who live at home. Mrs. Griffith Rosebrough of Newark, is a niece of the deceased.

The funeral took place from the Methodist church Monday afternoon at 2 o'clock, and was under the auspices of Center Star lodge of Masons, of which he had been a member for many years. The funeral was preached by the Rev. Mr. Miller, pastor of the church. The interment was made in Maple Grove cemetery.

## PAROLED CONVICT AGAIN IN TAILS

He was arrested on the charge of "cleaning" the pockets of lodgers at the B. J. Smith hotel Friday night of last week. One victim awoke and recognized the thief as he was leaving the room.

## "PAPA, PLEASE DON'T SHOOT ANY BUNNIES" AND HE WILL NOT

There is one man in Newark who will not go rabbit hunting this fall, as he had ardently planned to do. He

has oiled his gun, wrapped it up and laid it away. He has stopped training his dog, and the latter is getting fat and lazy.

And why this change? All because a little girl, his little girl, hearing him talk one day about shooting rabbits while she was reading a rabbit story in one of her books, rushed up to her father, put her little arms about his neck, and, with tears in her eyes, said:

"Papa, please don't shoot any dear little bunnies. I love bunnies. They are the sweetest little things. I am reading about two of them now. You won't be cruel enough to kill them, will you papa?"

And papa, looking long and deep into the heart of his child through those tear-wet portals, answered "No, my little girl, I will not."

Then she unwound her arms from about his neck, kissed her moist lips, wiped the tears from her eyes and, as he left her, was rewarded with a smile of joy that was worth ten thousand times ten thousand rabbits.

By far the most important under-

taking of the society last year was the establishment of the Bureau for the Handicapped. The blind, whose sense of hearing is usually acute, may find profitable employment as telephone operators, while a cripple may be taught some work of skill which will net him a good income.
